THE "BOSS" CHICKENS.

Capt. Mason Ahead.

The poultry exhibition, which was given in this city a short time ago, created an unusual excitement, and induced poultry owners to get the best breeds to be had. Since the exhibition was held several of our leading citizens have been vying with each other in getting fine poultry. Every few days a fine rooster would be purchased and acknowledged as "cock of the walk" until a better one would be produced. A week or two ago Mr. A. T. Hill bought a fine Houdan cock, which, until Monday last, was the favorite fowl.

On Monday Capt. W. W. Mason received a pair of "White Spanish Chickens" direct from Spain, having written to Minister Sikes for them soon after the arrival of these fowls. It was noted abroad among poultry owners that the long-expected chickens had arrived, and at about 10 o'clock at night Capt. Mason was aroused from his couch by a lot of mad-looking men who had come down to see the "thoroughbreds." The coop was surrounded by the admiring spectators, who looked at the chickens repeatedly, pronouncing them to be the finest fowls in the country. After gazing upon the feathered bipeds for some time the poultry men left, acknowledging the fact that Mason had the best breed of chickens to be found in the county.

On the same day of the receipt of the fowls, the Captain received the following letter from Minister Sikes, which he is showing to all who are disposed to doubt that the chickens came direct from Spain.

Give my respects to Senator Oglesby and our other old-time army friends.

Please inform me of their arrival and the condition they arrive in.

I subscribe myself your friend,

E. O. SICKLES.

The Good Templars' Hall looks desolate.

The water leaking through the old composition roof has taken off a good part of the plastering in the room, and all carpets and furniture have been taken out. The room will have to be replastered. Work will soon be commenced at fixing up the room again, and it is thought that the work will be all done and the hall ready for occupation within two weeks from the present time.

Fresh Lettuce and Radishes at Imboden & Co.'s.

SHIT AT IT—We mean J. P. Marsh making fine boots to order and waiting upon customers to the very superior ready-made goods which he always keeps in supply, embracing boots and shoes for men, women and children's wear—Call and see him.

"Carnell's Conversion" was the subject of Elder D. R. Lucas' discourse at the Christian church last night. The sermon occupied 40 minutes in its delivery, and was listened to with marked attention throughout. To-night the Elder will preach on "The Great Conflict between Romanism, Protestantism and Infidelity." The public is cordially invited.

The A. P. C. Club gave one of its most enjoyable dances last night, at the residence of Mr. Chas. Conner, on the corner of North and Jackson streets.

About twenty couples were present and danced, keeping time to the excellent music furnished by Ebert's quadrille band, until two o'clock, when the party broke up and the guests went home.

REPORT 4TH WARD SCHOOL.

To the Board of Education, Decatur, Ill.

Your committee, appointed to attend the examination of the Fourth Ward School, respectfully submit the following report:

We find it very difficult to visit a school one day in a year and from that visit give an intelligent and reliable report of the condition of the school, or the progress made by scholars. We were told that there had been no special preparation made, but that the classes were being examined in the various studies they had been over during the school year. It was evident from the prompt and generally correct answers given to the questions, that the work had been thorough, and that the knowledge that they were acquiring would not soon be forgotten. The system of instruction seems to be such that the scholars not only progress rapidly, but retain what they have learned.

We think that with Miss Smith in charge of the first room, Mrs. Caldwell and Miss Crowley in the second and third, with Miss Wilder in the fourth as Principal, the school of the fourth ward cannot fail to be pleasant and profitable to the children, satisfactory to the parents, and second to none in the city.

W. T. WALLACE,  
MRS. G. A. HOWELL,  
MRS. TUTTLE,  
Committee.

IT SHOULD BE DONE.

The project of paying a thoroughfare from the old square to the depot is being discussed, and is certainly a scheme that is worthy of attention. As it now is, there are at least five months out of the year when getting to and from the depot with a loaded team is a very difficult matter, and a paved thoroughfare from the depot to the business part of town would do much to remove the difficulty that attends the transportation of passengers and merchandise between the two points. We hope the matter will receive the attention which its importance requires, and that the discussion may result in the much needed improvement being made.

Work on sidewalks and crossings has been resumed in good earnest. Improvements in this direction will probably be greater this year than in any previous season. There will be loud and pressing calls for new walks in those parts of the city where new houses are being built, and lots are being improved. There are also many old walks that need to be reconstructed, so that the supervisor and his force will be likely to be kept busy.

Good Time Coming.—In other places in our columns will be seen notices of the entertainment to be given at the Universalist Church on to-morrow evening. The parties having the matter in charge are preparing for a right good time, and the entertainment will be such as cannot fail to please all who may attend. Some of the exercises will be somewhat novel, and such as everybody will be pleased to see.

S. Einstein has just returned from the city with a large stock of Spring and Summer Goods.

The Ball on Tuesday Evening.—The preparations for the ball to be given by Prof. Moll's classes next Tuesday evening indicate that the occasion will be one of the best of its kind ever given in Decatur. Among the attractions will be the dancing of several pieces by the juvenile class, which has made more progress under Mr. Moll's instructions than any other class ever did in this city before. The programme will consist of a number of very choice dances, some of which are entirely new in Decatur.

"The Antidote" for leanness is laughter. Go to the Universalist Church to-morrow evening and get fat.

Bible Meeting.—There will be a business meeting of the Macon County Bible Society, held at the office of C. C. McComas, Esq., on Thursday, the 8th day of April next. All members in the city and the directors are hereby notified to be present, as business of importance will come before the meeting.

J. R. GORIN, Pres't.

Ice.—Martin Forstmyer has started his ice wagon, and is delivering a finer article of congealed water than was ever before seen in Decatur.

During the month of March there were only nine interments in Greenwood Cemetery. This shows that the health of the city is good. There have been fewer burials during the first three months of this year than there ever was in the same length of time in 1874.

If you see a man going around during the day time with a lantern in his hand, don't become alarmed and think old Diogenes has been resurrected, for it is only the superintendent of the gas works inspecting the meters and collecting what is due the gas company for the past month.

A goodly number of Kansas refugees are settling in this county, and will commence farming here this spring.

Four horses are now required to draw an empty wagon, and occasionally the services of one pair of the horses are required to draw the other pair out of the mud.

Cheap Boots and Shoes.—C. Hedrick, east side of Central block, will hereafter make to order, fine calf sewed boots for \$10, and pegged for \$7 50. He also makes a nice boy's shoe at a very low figure, and all descriptions of ladies' and misses' shoes. He will not be undersold on custom work, and cannot be beaten in quality of work.

If You Want a handsome Tie, call at S. Einstein's.

FROM WHITMORE.

OREANA, ILL., March 31, 1875.

REFORM PARTY.—The Independent Reform Party held a convention here yesterday afternoon to nominate a ticket. C. H. Garver was chairman of the meeting, and Jos. Ray (Murt), Secretary.

The Democrats had held a caucus some day before and made a ticket, which the Independent Reformers went through the form of nominating, as follows:

For Supervisor, J. C. Rudbeck; Town Clerk, S. G. Coale; Assessor, C. H. Garver; Collector, T. M. Ayers; Commissioner of Highways, A. Moothart.

At the close of the meeting the Supervisor was instructed to have the tickets printed at the expense of the township.

The Republican party pay for their own tickets, and would like to know by what authority the Democrats use the public funds to carry out their political schemes.

Will the "Boss" explain this petty thieving.

Yours, JUSTICE.

"THE SEVEN AGES"

For further information attend the entertainment to-morrow evening at the United Methodist Church.

FIRST WARD SCHOOL.

To the Board of Education:

Your committee appointed to visit the First Ward School, and report upon the discipline employed, and the progress of the several classes, would respectfully submit the following:

From our observation and information the school is prospering and doing a good work. We were pleased to note among all the teachers a uniform and willing devotion to their work; and if there be superior discipline in some rooms, it is doubtless due to greater experience, and not to any greater interest in their work.

The principal, Mr. Bigelow, in the opinion of your committee, fully sustains his high reputation as a disciplinarian and thorough worker. His class in reading is taught to look well to the development of the sense of whatever they read. The examination of two of his classes in United States History was impressive, thorough and satisfactory.

In Miss Murphy's room we were treated to a classification of the animal kingdom by her class in zoology, and were much pleased with the good order and interest which prevailed.

In the fourth grade we found Mrs. Bradley, a worker that need not be ashamed of her workmanship. She conducted an oral exercise in botany, in which the principle of fructification in the vegetable kingdom was well and clearly exemplified. She is a teacher "to the manner born."

In the third and second grades Miss Pierce and Miss Johnson respectively are earnest, hard working teachers, equally devoted as the others.

In the first grade, as to Miss Milburn and her happy family of little folks, "all went merry as a marriage bell."

A. J. WALLACE,  
J. W. HAWORTH,  
W. M. STEVENSON,  
MRS. S. BURGESS,  
Committee.

Rose, Lafayette; John Fleisch, do.; L. M. Ayers, St. Louis; H. L. Williams, Chicago; W. S. Williams, do.; J. W. Rice, Seymour, Ind.; Sam Wheeler, country; Clint. Vermillion, city; W. H. Stainbrook, do.; Billy Emery, Champaign; L. B. Louis, Elkhart, Ill.; Fred Lichter, St. Louis; Billy Birch, country.

In passing along the south side of East Main street, near the Old Square, one's attention is arrested by the fine display of boots and shoes in the show window of V. Barber & Co., but, as fine as the display is, it is only an index to what may be found, upon entering the well-stocked store. Here persons may supply themselves with anything they may wish in the line of boots, shoes and slippers, which will be shown them by the accommodating proprietors and courteous clerks.

TEXAS LAND.

Persons who desire to look up land with the Decatur Land Company, on the public domain of Texas, at the low rate of forty-two cents per acre, can have an opportunity to do so by applying at once to M. B. Thomas, Secretary of the company. Office in Priest's Hotel, Decatur, Ill.

The Question Answered.—"How Linn & Scruggs employ so many salesmen and sell goods cheap." They keep the largest stock of dry goods in Decatur—they get more goods than any other Dry Goods House in the United States, according to population, and their expenses are less in proportion to sales. Besides they are thus enabled to buy most of their goods of first hands and by the case and package, which gives them great advantage over small dealers.

He also represents the Hamburg line of steamships, which in the matter of safety and dispatch are known to be equal to any that cross the ocean. Bayley has his office at 23rd Street, Clothing Store, on East Main street, where samples of machines and door plates may be seen. Prompt attention will be given to all orders in either line. The Truth.—In the whole United States there is not a baking powder or flavoring extract that is as valuable, so pure, so effective in producing the most elegant and beautiful bread and biscuits, the most delicious, desirable, and delicate flavored cakes, pastry, ice cream, etc., as Dr. Price's justly celebrated Cream Baking Powder and True Flavoring Extracts. Almond, Lemon, and aromatic flavors. Try them and you will be delighted with their true qualities, and find that they are far superior to anything in their line.

The Heart is a Wonderful Pump, the valves of which open and shut seventy or eighty times per minute. If an alcoholic stimulant be taken into the blood the pump works much faster, and this unnatural speed wears out the vital machinery. All the intoxicating nostrums advertised as "tonics," "revivators," "correctives," &c., produce this disastrous effect, and hence all intelligent Christians are thankful that Dr. WALKER'S VEGETABLE VINEGAR BITTERS—an invigorant and Alternative without a sting—is everywhere supplanting these proprietary poisons.
